## Summary

Final-year Information Technology undergraduate with a strong foundation in C++, Data Structures & Algorithms, and MERN Stack development. Experienced in building web applications and software development projects. Committed to continuous learning and delivering quality solutions. Looking for opportunities to contribute to impactful projects and grow as a software engineer.

## Education

### B. Tech in Information Technology

Jaipur Engineering and Research Centre, Jaipur

CGPA: 8.62 (Till 5th Sem.)

**2023–2027**

## Skills

**Programming Languages:** C, C++, Python, JavaScript

**Frontend Development:** React.js, Tailwind CSS, HTML5, CSS3

**Backend Development:** Node.js, Express.js, REST APIs

**Databases:** MongoDB, MySQL

**Tools/Cloud:** Linux, AWS (Basics), Git, GitHub, Visual Studio Code

**Soft Skills:** Problem Solving, Adaptability, Team Collaboration, Leadership

## Projects

### TalkNow - Real-Time Chat Application

[GitHub](#) | [Live](#)

- Built a low-latency chat platform supporting **100+ concurrent users** with state management.
- Architected 10+ secure REST APIs while optimizing MongoDB schemas for high-speed retrieval and consistency.
- Integrated Socket.io for bi-directional communication, enabling real-time message delivery under **100ms latency**.
- Optimized backend database queries and indexing, reducing message retrieval latency by 15%.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, Socket.io, REST APIs, Git/GitHub

### StarNote - AI-Integrated Smart Study Platform

[GitHub](#) | [Live](#)

- Created an AI study platform for **resource management**, automated learning assistance, and tracking.
- Implemented a scalable full-stack architecture using React.js and Express.js with 10+ secure APIs.
- Leveraged Google Gemini, Groq, and OpenRouter APIs for real-time AI chat and quiz generation.
- Configured JWT authentication, enabled Socket.io, and optimized MongoDB for **50+ study resources**.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, REST APIs, Socket.io, JWT Authentication, Google Gemini API, Groq API, OpenRouter API, Git/GitHub

## Achievements

- **Operations Lead – SOCH Club:** Led a team of **40+ members** and coordinated club operations seamlessly, increasing event execution workflow by **25%** through tactical planning.
- **Smart India Hackathon (SIH):** Collaborated with a cross-functional team to design and prototype a real-world problem-solving application at JECRC.
- **Technical Problem Solving:** Solved 250+ DSA problems across LeetCode, Coding Ninjas.

## Courses & Certificates

- **Full Stack Development Internship at Upflairs Pvt. Ltd.:** Developed MERN stack applications and built RESTful APIs to optimize backend data flow and improve application responsiveness.
- **Python Programming Certification (Kaizen Innovation):** Learned core Python programming concepts and algorithms, strengthening problem-solving skills through data structure implementations.
